---

WORK EXPERIENCE

GK-Optical | MERN Stack E-commerce Freelance Project   **Jan 2025 – Apr2025**

- o Developed a full-featured e-commerce website for selling sunglasses, eyewear, contact lenses, and accessories using the MERN stack.
- o Built a secure admin dashboard with full CRUD capabilities for managing products, blogs, ads, and user data.
- o Integrated user authentication with JWT and implemented user features like login, wishlist, cart, and order tracking.
- o Integrated Razorpay payment gateway for secure and seamless transactions.
- o Designed responsive UI/UX for both frontend and admin panels ensuring smooth navigation across all devices.

PROJECTS

EJS CRUD Web App (Server-Rendered)   **2025 Present**

Personal Full Stack Project using Node.js, Express & EJS

- o Built a server-rendered app with Node.js, EJS, MongoDB, and secure user authentication.
- o Added full CRUD features with form validation, sessions, and dynamic data handling.

PROJECT HIGHLIGHTS

Personal & Practice Projects

- o Built a bus reservation system with multi-user support and input validation.
- o Implemented full CRUD operations using React and Redux Toolkit efficiently.
- o Created Todo apps using both React and vanilla JavaScript with clean UI.
- o Developed a responsive news website template optimized for various screen sizes.
- o Built a custom slider component with smooth transitions and nav controls.
- o Cloned a modern UI design focused on clean branding and user flow.
- o Designed a mobile-first restaurant website with elegant and responsive UI.
- o Developed a one-page race template with scroll-based animations and effects.

CERTIFICATE
